Repeated comments regarding the same or similar topics previously addressed are out of order and will not be allowed. Comments regarding performance by city employees are inappropriate at this time and should be directed to the Mayor, either by subsequent appointment or after tonight's meeting, if time permits. In order to ensure adequate public notice, Idaho Law provides that any item, other than emergencies, requiring Council action must be placed on the agenda of an upcoming Council meeting. As such, the City Council can't take action on items raised during citizens issues at the same meeting but may request additional information or that the item be placed on a future agenda.

# CITY COUNCIL MEETING MINUTES

March 7, 2023 6:00 PM

Location: City Council Chambers, 408 N. Spokane Street, Post Falls, ID 83854

#### **WORKSHOP – 5:00 pm Basement Conference Room**

Topic: Agricultural Exemptions and Closing Urban Renewal Districts Early Warren Wilson, City Attorney presenting:

I.C 63-904 allows agricultural lands to be taxed at a lower rate. If the land is 5 acres or more it has to be "actively devoted" to agriculture such as producing field crops, producing nursery stock, grazing livestock for profit or leased for grazing, or in a crop rotation/retirement program. If the land is 5 acres or less and "actively devoted" to agriculture for the last 3 seasons it has to produce field crops, or produce nursery stock, or grazing livestock for profit/leased for grazing, or in a crop rotation/retirement program. It also has to provide 15% of the owner's annual income, or gross revenues of \$1,000 or more in the preceding year. in less than 5 acres it is presumed to be "nonagricultural" unless proven. If a plat restricts the use of the property for ag uses, the property cannot qualify for ag exemption whether its in the city or not. Platting of property does not change the status if the property meets the requirements. The focus of the statute is on how the property is used and not whether its annexed or platted. If actively used for agriculture, the property receives the tax break regardless of other factors. This is harder to quality for smaller properties. This may not be legal to require an owner to give up status. Agricultural uses are valuable and should be supported for as long as the property is being used for agricultural uses. Ag property does not use many city services so not limited additional services to justify the requirement. This could very likely create a legislative backlash to protect farmers.

#### Early termination of Urban Renewal Districts.

Districts plans are required to have a termination date, this date can be changed by modifying the Urban Renewal Plan. In the year immediately preceding the new termination date, the agency would need to ensure that sufficient revenue exists to pay off existing debts/liabilities.

#### **ACTION ITEMS:**

a. Spokane Street Rehabilitation – Authorization for Construction Phase Services with Welch Comer

Jaxon Fleshman, Project Manager presenting: Welch Comer started design of the Spokane Street Rehabilitation project following Council approval in February 2022. The original agreement included engineering and design services with the option to add construction phase at a future date. This authorization for additional services includes the necessary tasks for bidding and construction management and observation. The project involves removal and replacement of asphalt from the Spokane Street Bridge to the eastbound I-90 on/off ramp intersection. Also included are some minor water system improvements, manhole lid replacements, and installation of conduits designated for future use. City Staff and Welch Comer are aware of other projects in the vicinity led by the Idaho Transportation Department and Post Falls Highway District and will continue to coordinate timing and work activities to minimize impact to the traveling public. Bidding on this project is anticipated spring 2023 with construction to follow a bid award. The requested amount for this is \$105,600.

Motion by Malloy to approve the Spokane Street Rehabilitation Authorization for Construction Phase Services with Welch Comer. Second by Borders.

# Vote: Malloy-Aye, Walker-Aye, Ziegler-Aye, Borders-Aye, Shove-Aye, Thoreson-Aye Motion Carried

b. Spokane Street Rehabilitation – BNSF Crossing Surface Installation Agreement <u>Jaxon Fleshman</u>, <u>Project Manager presenting</u>: The Spokane Street Rehabilitation Project involves removal and replacement of asphalt from the Spokane Street Bridge to the eastbound I-90 on/off ramp intersection. Within this area is a BNSF Railway Crossing. The existing crossing predates current BNSF standards which requires concrete planking. Typically, the cost of the improvements are the responsibility of the Agency (City) performing the adjacent roadway improvements. In partnering with BNSF, this agreement is a cost share 50/50 between the City and BNSF Railway. The planking improvements are anticipated to occur concurrent with the Spokane Rehabilitation project in 2023. The requested amount for this is \$55,201.30.

Motion by Malloy to approve the Spokane Street Rehabilitation BNSF Crossing Surface Installation Agreement.

Second by Borders.

Vote: Walker-Aye, Ziegler-Aye, Borders-Aye, Shove-Aye, Thoreson-Aye, Malloy-Aye Motion Carried

c. WRF Outfall Upgrade – Project Closeout and Contingency with McMillen Andrew Arbini, Public Works Projects Division Manager presenting: Council approved Change Order 4 with McMillen to install a cured in place pipe (CIPP) utilizing the construction contingency. This was as an acceptable remedy to address the city's concerns with the hillside section of pipe following failed pressure tests. A condition of this change order anticipated substantial completion would occur by the end of October. Installation of the CIPP product was unsuccessful. In early 2023 the contractor elected to remove and replace the section of pipe to remedy the concerns of the city and the city's design consultant (JUB). Substantial completion was reached on February 2, 2023. one year past the date identified in Change Order 4. Change Order 4 and the installation of the CIPP liner would have exhausted the remaining balance of McMillen's construction contingency or \$212,127.30/ as an offer to reconcile the city's construction contract, McMillen proposes a partial credit of the contingency utilized for the CIPP and reinstallation of pipe. This credit would be in lieu of the city assessing liquidated damages because of the delayed completion. The resulting credit of \$136,788.88 would be reflected in an adjustment to the Guaranteed Maximum Price (GMP). Including previous change orders, bid items credits and the current proposal from McMillen, the final value of the GMP becomes \$2,716,180.08. The original contract GMP was \$3,072,000.McMillen's original construction contingency (\$527,600) correlates to items identified in the project Risk Register. Work to remedy the pipeline was an identified risk in the register, would by an acceptable use of the construction contingency, and would be eligible for payment without this adjustment. McMillen's proposed credit offsets the additional costs incurred by the city due to the delay, including costs associated with JUB's time in providing project management services to project completion. This proposed change order will result in a credit of \$355,819.92 and a final contract value of \$2,716,180.08.

Motion by Malloy to approve the WRF Outfall Upgrade Project Closeout and Contingency with McMillen.

Second by Borders.

Vote: Ziegler-Aye, Borders-Aye, Shove-Aye, Thoreson-Aye, Malloy-Aye, Walker-Aye Motion Carried

## Memorandum of Legal Counsel

**To:** Bill Melvin

From: Field K. Herrington, Deputy City Attorney

**Date:** March 9, 2023

**Re:** February 14, 2023, Bid Opening – Water Tower Parking Lot

My review and analysis are based purely on the legal aspects of the bid as authorized by the Idaho purchasing statutes, particularly Idaho Code § 67-2805, and the required information contained in the notice inviting bids. On or about February 14, 2023, I received copies of nine (9) bids that were received and opened by the City Clerk, Shannon Howard at or about 2:00 PM on February 14<sup>th</sup>, 2023. I would note that the bid tally sheet contains the incorrect date of January 14<sup>th</sup>, the bids were opened on February 14<sup>th</sup>.

The bids consisted of bids (Total Base Bid & All Add Alternates) from Cameron Reilly Concrete (\$441,947.00), Simco Development (\$498,329.80), Big Sky Corp (\$446,372.00), NNAC Construction (\$532,920.00), Interstate Concrete (\$389,223.00), Stewart Contracting (\$641,405.00), Selland Construction (\$445,432.00), Terra Underground (\$442,011.06) and LaRiviere (\$434,055.25).

I have reviewed the submittal from the apparent low bidder, Interstate Concrete and Asphalt, Inc. ("Interstate"). Based upon the bit total sheet, Interstate appears to be the lowest responsive bidder. I did a cursory review the other bids as well, but they have not been thoroughly reviewed and no analysis is presented here. However, if a need for such review is required, I will be glad to accommodate.

My review of the Interstate bid leads me to conclude, on a purely legal level, Interstate is the lowest responsive bidder, and if the City intends to award the bid, then the bid should be awarded to Interstate. My conclusion is based upon the following information:

- 1. I have reviewed the Bid Total Sheet and bid submittals from the City Clerk. It appears that the submittal by Interstate was timely.
- 2. The submittal was provided on the required form and with the required attachments:
  - a. Completed proposal;
  - b. 5% Bid Bond;
  - c. Bidder information;
  - d. List of required subcontractors with the requisite license information;
  - e. Executed Non-Collusion Affidavit;
  - f. Executed Anti-Discrimination Affidavit; and

- g. Brian Dagon, Construction Manager, executed the attestations and documents. Evidence of authority of Brian Dagon to sign was provided, as shown by the Certificate of Authority executed by Jared Wise, Vice President of Interstate.
- 3. I researched the Public Works License of Interstate to confirm the validity of the license, the level of the license, and the approved types of work. Interstate is a licensed Public Works Contractor with an "Unlimited" license No. PWC-C-12090. I have attached the copy of the license information for your records.

Based upon my review Interstate is compliant with Idaho Law, the City of Post Falls Procurement standards, and is the lowest responsive bidder at \$389,223.00, which is \$68,970.05 lower than the estimate provided by our engineer, Welch Comer.

I did not review the details of the plans or specifications. I will defer to you on the technical aspects of the bid, as I lack the requisite knowledge and skills to opine on the technical aspects.

Should you have any questions, please feel free to contact me.

Very Truly Yours,

Field K. Herrington Deputy City Attorney

## CITY OF POST FALLS AGENDA REPORT

**New Business** 

**MEETING DATE:** 03/21/2023

**DATE:** 03/16/2023

TO: HONORABLE MAYOR AND CITY COUNCIL

FROM: John Beacham

**SUBJECT:** Professional Services agreement with Bernardo Wills Architect for City Hall Remodel

#### ITEM AND RECOMMENDED ACTION:

City Council approves and authorizes the Mayor to sign the contract with Bernardo Wills Architects to design and support various remodels to City Hall.

#### DISCUSSION:

Several improvements are needed at City Hall to accommodate various functions. New office spaces are needed in the Administration and Legal Departments to accommodate future staff. This need was outlined in the Facilities Plan. Planning is also needed to complete a similar remodel in the Community Development Department in the near future. Minor modifications to the Council Chambers are being considered to facilitate those presenting to Council. Finally, several security improvements are recommended to better accommodate after hours meetings and considering changed operations since the facility was constructed. In order to capitalize on the opportunity presented by hiring an architect, staff also proposes to study the acoustics of the rotunda and establish potential projects which would render that space more usable in the future.

Bernardo Wills was selected as the best qualified firm after interviews were conducted with several firms on the City's consulting roster.

Fiscal Impact: Funding for this work will come from the City's Facilities Budget. Approval is requested for the base contract value of \$59,690 and a 10% contingency of \$5,969 to be authorized by the Public Works Director, or his designee. Approval is also requested to authorize the additional services of an acoustical engineer site visit, if necessary. The maximum value requested for approval is \$70,270.

If needed at a future time, City Council approval will be sought to authorize the other optional services listed, including construction assistance.
