Introductory Section

Above: Post Falls City Hall Plaza in Summer and Winter

February 25, 2011

The Honorable Mayor, members of the City Council and the Citizens of Post Falls, Idaho:

The Comprehensive Annual Financial Report of the City of Post Falls for the year ended September 30, 2010, is hereby submitted as mandated by both local ordinances and state statutes. The City is required to issue an annual report on its financial position and activity. This report must be audited by an independent firm of certified public accountants. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the various funds and component units of the City of Post Falls. All disclosures necessary to enable the reader to gain an understanding of the City of Post Falls' activities have been included.

The City of Post Falls is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1997, and the U.S. Office of Management and Budget's Circular A-133, *Audits of State, Local Governments, Non-Profit Organizations*. Information related to this single audit, including a schedule of expenditures of federal awards and the independent auditor's reports on internal controls and compliance with applicable laws and regulations are included in the single audit section of this report.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Post Falls' MD&A can be found immediately following the report of the independent auditors.

Governmental Structure

The financial reporting entity, an Idaho municipality, includes all the funds of the City of Post Falls, as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable. The government provides a full range of services including water, wastewater and sanitation utilities, police, animal control, parks and recreation programs, planning and zoning, library services, cemetery services, urban forestry services, streets, building and engineering functions.

The accompanying financial statements include all aspects controlled by the City Council of the City of Post Falls. Criteria for inclusion is determined by Governmental Accounting Standards Board Statement No. 14 (GASB No. 14) which states, in general, that the legally separate organizations for which the elected officials of the City are financially accountable for must be included in the City's financial statement as a component unit.

Under Idaho Code, in May 1991, the Post Falls City Council passed an ordinance that created the Post Falls Urban Renewal Agency (the Agency), a legally separate entity from the City. The Agency was established to promote urban development and improvement in blighted areas in and around the City. A board of seven directors, appointed by the City Council, governs the Agency. The City Council has the ability to appoint, hire, reassign, or dismiss those persons having responsibility for the day-to-day operations of the Agency. These powers of the City meet the criteria set forth in GASB No. 14 for having

financial accountability for the Agency. Based on the above, the Agency has been discreetly presented in the accompanying financial statements of the City as a component unit.

Under Idaho Code, the Agency has the authority to issue bonds. Any bonds issued by the Agency are payable solely from the proceeds of tax increment financing, and are not a debt of the City. The City Council is not responsible for approving the Agency budget or funding any annual deficits. The Agency controls its disbursements independent of the City Council.

Economic Conditions and Outlook

Post Falls is located four miles east of the Washington-Idaho border along Interstate 90 in Kootenai County and is bounded by Coeur d'Alene, Idaho to the east, the State of Washington to the west, the Spokane River to the south and the Rathdrum prairie to the north. Post Falls is 20 miles east of Spokane, Washington and approximately 100 miles south of the Canadian border.

The City of Post Falls has grown from 7,350 residents in 1990 to an estimated 26,909 in 2010. This influx of new residents has resulted in a strong construction industry, with total building permit valuations in the City exceeding \$65 million for the past five years and topping \$151.9 million in 2005. The level has decreased over the last couple of years and is anticipated to be somewhat stagnated for FY 11.

Due to the proximity of numerous lakes, rivers and mountains, Post Falls, Idaho is an inviting place to live and visit. This fact is reflected in the tourism and retail sectors of the economy, with an increasing number of retail, dining, and entertainment businesses locating in the City. Additionally, Post Falls has become a favored retirement community.

Kootenai County traditionally has had a timber-based economy. That is changing gradually, as the manufacturing base has become more diverse. Jobs Plus, Inc., the local economic development organization has recruited several small to medium sized firms to the county. Manufacturing jobs are found primarily in electronics, lumber, and furniture at the present. Post Falls was the chosen location for Flexcel (now Kimball Office), Inc., a major furniture manufacturer that relocated to North Idaho nearly fifteen years ago and employs a workforce of 350. This was done with the help of Jobs Plus, Inc. and by creating an Urban Renewal District to help build infrastructure. This District closed out at the end of December 2001. Jobs Plus, Inc. has also just recently helped bring Center Partners, a call center business (employing a workforce of 300), and Buck Knives brought their manufacturing headquarters (workforce of 250) to the City. Also, Wal-Mart opened its new store in January of 2005. Sysco foods opened their distribution plant during 2005. This project was made possible by Jobs Plus, Inc., Urban Renewal, and the City working together. Also, a community development block grant for \$500,000 was used to help fund a water tower (approximately \$1,500,000 total cost) that was needed on the west side of town for development in that area. In 2007, Cabela's opened its doors to a beautiful 130,000 square foot retail store. Considerable economic development activity transpired in Post Falls in 2009 including the opening of ALK Source Materials/Biopol which is a Danish pharmaceutical company. Ground Force Manufacturing, a large construction equipment manufacturer, completed an addition that increased their production space by 20,000 square feet in 2009 in order to meet the heavy demands for their mining construction products around the globe. In 2010, a second Super Wal-Mart store opened near the new Cabela's store, and Lowe's Home Improvement finalized the purchase of land adjacent to the new Wal-Mart at the Pointe at Post Falls. A new 30,000 professional office building to house a high tech educational software company named Ednetics; the State of Idaho Department of Labor finalized construction and opened their new regional office here in Post Falls that provides services to the northern five counties of Idaho; C&S Glass began constructing a new 10,000 square foot glass service and distribution center, and the infrastructure was completed within the City Center on the first phase of the Post Falls Landing Commercial project that is designed to accommodate a hospitality element and several retail and professional buildings. In early 2011, Love's Travel Centers will be constructing a new fuel center along Interstate 90 that will have a convenience store and new Carl's Jr. Restaurant. Blue Dog RV is planning on constructing a new recreational vehicle showroom and maintenance facility; several restaurants are also anticipated to locate within the Pointe at Post Falls regional power center to take advantage of the retail traffic of Cabela's and Wal-Mart; the City's downtown area is expected to see

a major mixed use project also take off with the creation of the community's seventh urban renewal district. This project will be named the Idaho Veneer Development in honor of the mill and wood products company that owns the land proposed for redevelopment; finally the community anticipates that construction on the Beck Road Interchange with Interstate 90 will begin this fall ultimately providing service to the Pointe at Post Falls and EXPO on the north side of the freeway and the Riverbend Commerce Park and Greyhound Event Center on the south side of Interstate 90. The commercial sector will continue to be active and bolster the local economy while the residential housing market will continue to normalize itself and perhaps see somewhat of a surge during 2011.

Major Initiatives

Growth Management – The City continues to work toward the development of a new form based code that will operate in parallel to the current Euclidean based zoning code. The new Smart Code will hopefully incentivize a more traditional neighborhood development feel with communities and individual projects which will fall under its prescriptions. The new code was adopted during FY 10. The code will also assist the City in creating sustainable development projects as well as encourage more pedestrian friendly development.

Community Development will continue to work on new and innovative ideas in growth management throughout the next fiscal year. This will include the creation of an annexation policy that will better help to evaluate the fiscal impact of a proposed annexation and serve as a guide for the elected officials of the community to determine the viability of an annexation proposal.

The City continues to actively work with and pursue opportunities for collaboration with the Post Falls Urban Renewal Agency. Projects are being designed for the City Center District that will continue to foster new investment and development in what is hoped to be the community's downtown. New development in that area includes a multi-tenant medical building containing family practice physicians and an optometric physician, and the consummation of an agreement with the Post Falls Chamber and the City which allowed the Chamber of Commerce to develop a new 6,000 square foot office building on the City Hall campus during FY 10.

A collaborative effort between the Cities of Post Falls, Hayden, Rathdrum, and Kootenai County was finalized which set out to evaluate the wastewater management for the Rathdrum Prairie. This study was designed to help define the urban growth boundaries for each city and the open space component on the prairie. This study will lay the foundation for future wastewater growth on the prairie.

Public Health/Environment – The goal of effective and timely maintenance and repair of facilities and equipment is one of our highest priorities. We continue to work towards better treatment of all pollutants and provide the best service to our community. Equally important is the effort to assure that the infrastructure constructed by developers, builders, and private contractors is constructed to the highest possible standard while complying with recognized standards and specifications.

The Street Maintenance Division has a program of bi-weekly sweeping citywide through the summer months to help with dust control. This program has worked well to reduce dust from the traffic on our City streets.

The City has directed greater effort to crack sealing, seal coating, and maintenance overlay of streets to preserve current paved surfaces. A program has been initiated to pave or replace badly deteriorated chip sealed streets with new pavement in residential districts. This past year we invested over \$600,000 in this area to improve the traveling service.

The Water Utility Division operates a water system to serve the City which consists of 9 wells and 5 reservoirs. We have a pumping capacity of 14 million gallons a day with reservoir capacity of 6.5 million gallons.

The Water Utility Division continues to install radio read meters on residential accounts in the City with this project 65% complete. This will reduce labor time to read meters for these accounts. The Division has also begun installing hydrant locks on all City owned hydrants for added security with this project 75% completed.

The Water Reclamation Division is in the process of expansion to our facilities. This work will add 1 million gallons of daily capacity and with some additional equipment we will be able to add an additional million gallons a day to bring the plant capacity to 5.1 million gallons a day. We completed construction of upgrading a lift station to improve capacity on the east quadrant of the City. The City now has 31 lift stations to serve the community. The bio-solids from the plant are continuing to be hauled off site and processed by Parker Ag Systems. The Water Reclamation Division has 628 acres for future land application for reclaimed water.

The City completed a study for local limits for the Water Reclamation Division. This will help with insurances of permit compliance. We continue to work with EPA towards a new NPDES permit for the Water reclamation facility. This permit will have some of the most stringent limits of any in the United States. We have also completed our first year under the NPDES permit for storm water with our annual report ready to be sent in.

Other Community Services – The Parks and Recreation Department is responsible for the operations of the City's Parks, Recreation, Cemetery, and Urban Forestry divisions. The focus of the department is to help the City meet its strategic plan goals and the more recent Initiatives program by providing programs and facilities that embrace those goals.

As a department we continue to upgrade and maintain our parks and City facilities. The focus is on planning, development, and standardization of infrastructure to increase system efficiency, improving cost effectiveness, safety, and reducing liability, the department must comply with Americans with Disabilities Act (ADA), playground safety and environmental regulations.

Over the last few years the department has made improvements in the following areas: state of the art irrigation systems, picnic shelters, restroom facilities, trails and pathways, maintenance equipment, trash collection, security cameras, lighting, signage, wildlife management, and playground equipment. In addition, the department continues to emphasize good customer service and maximization of resources as it tries to keep up with public demand for services.

The department is faced with a continued need to coordinate its operations with a greater number of service partners and volunteers than in previous years. The increased number of special projects and community events is another area that has had an impact upon the staff and budget for the department.

Privatization/Centralization – The Mayor and City Council have set a goal of evaluating the privatization of those activities that might be done for less cost through a contractual arrangement. In addition, some services may be more cost-effectively applied through using the services of other public agencies. The key is to maintain the quality of service, as well as the management control of the service, while at the same time reducing costs. The City has been very successful in accomplishing these goals in the areas of garbage hauling, utility bill printing, on-line utility payment collections, street light maintenance, and legal services.

The City has also pursued the goal of reducing costs through the centralization of office supply purchasing, computers and janitorial supplies. This has provided larger volume discounts. To further this goal, a purchasing officer position was added within the Finance Department and it has already proven successful.

Lastly, the City implemented a newer flattening of the organization, bringing more departments together under a single department head, thereby eliminating the need for three department heads and centralizing program tasks to create more efficiency within the City. This has helped to reduce waste and personnel costs within the City.

Departmental Highlights of FY 2010

Police

- Replaced five patrol vehicles with excessive mileage. Four of those vehicles went into the patrol rotation and one vehicle was issued to the School Resource Officer. Two of these vehicles were purchased with Justice Assistance Grant funds.
- Purchased two 2010 Kawasaki Concours Police Motorcycles to replace current 2001's. These motorcycles will help reduce the risk of injury to staff and have the latest technology integrated to allow officers to be as efficient as possible.
- Obtained Justice Assistance Grant to purchase a 2011 Yamaha Rhino 4x4. This vehicle will primarily be used by the Volunteers on Patrol to actively patrol the Centennial Trail and our local Parks. In the past, River City Yamaha had provided the department with the use of a Rhino at no cost to the City. This program ended last year. It is vital in our eyes to have someone out on the trail that can assist when needed.
- Our K-9 program continues to be a success. Koda has successfully completed all of this training to become Idaho POST certified in Tracking and Drug detection. In his first couple of weeks on the streets he's been successful in approximately eight drug finds.
- Departmental volunteers continue to provide a valuable service to the Department and the City. We have added five volunteers to the program which has enhanced the capabilities of the program. The volunteers continue to provide an excellent service to our customers.
- The department has established an agreement with Spokane based InterTech Pro to automate payments and fines. When completed, this automation project will enhance our service to the community by permitting the payment of fees and fines through the use of the Department website. Customers will be able to pay citations, traffic school, parking citation, etc., online using a credit card for payment. In addition to improving service, this will also reduce the workload for our records and communications staff. We are on track to have this on line after the first of January 2011.
- Obtain State accreditation – We have completed the first few steps in obtaining State accreditation. The initial site visit was completed by the Idaho Chiefs of Police Association in September and the final site visit will be completed by the end of the year. We will become the first agency in North Idaho to obtain this accreditation.
- Update Department policy – We have just completed an update to the Police Department Policy. These updates will help to ensure that we are following common police practice and the content does not become outdated.
- Voiceless dispatching – We have transitioned to voiceless dispatching to enhance our efficiency. This new program includes dispatching of calls that are not in progress using the Mobile Data Computers in the car. When a call is received that is not in progress, the dispatcher can simply send the call to the car without using the radio. Once received, the officer can simply touch a button and show he or she is en-route to the call. All in progress calls continue to be dispatched in the same method they are currently dispatched, by using the radio. This new process improves efficiency, while reducing the workload on our Communications Center.
- Alcohol beverage control licensing transferred to the Department – With the reorganization of the City, alcohol beverage licensing was transferred to the Police Department. We established a Standard Operating Procedure (SOP) to accept applications and issue licenses as appropriate.

- Analysis of Code Enforcement duties – We analyzed the Community Services Division and determine the feasibility of proactive vs. reactive code enforcement and the proper staffing needs associated with changes that occur. We have added a sworn officer to this division which will allow us to be more proactive. We are currently working weekly to re-write City Ordinances that are out dated and un-enforceable.
- Analyze and implement employee suggestions – We completed employee meetings at the end of 2009. These meetings were an opportunity for employees to express their concerns and ideas, one on one, to enhance the efficiency and operations of the Police Department. Since that time, we have been working to implement many of the ideas provided by the staff.
- The Department upgraded the 911 telephone system, including the replacement of dilapidated 911 station computers. This upgrade allows us to continue to be on the cutting edge of 911 technologies and be prepared for whatever 911 challenges we face.
- The Department analyzed its administrative positions this year. After careful analysis, it was determined that the Lieutenant and Communication Manager's positions were not categorized correctly. In looking closely at the job duties and considering recent promotions in the surrounding agencies it was decided to promote out administrators to the position of Captain and Communications Director.

Parks, Recreation, and Cemetery

- A picnic shelter was installed behind the tennis courts at Black Bay Park.
- The Department renovated the old Chamber of Commerce building and began holding recreational classes in it beginning with the fall season.
- The Department maintains 71 separate park and city sites.
- Continued work on the Anselmo part of Corbin Park including turf development, fencing, and road improvement.
- A new 16' x 20' storage building was added allowing the cemetery staff to work on headstones year round.
- The cemetery division handled 77 services and 80 lot sales.
- Attendance hours for recreation programs exceeded 150,000 program hours.
- Over 900 volunteers donated 17,734 hours of their time to the recreation division.
- Another 552 trees were added to the tree inventory database, bringing the complete public tree inventory to 11,447 trees, representing an asset value of \$14.6 million.
- The City received an ARRA Urban Forestry Stimulus Grant worth \$121,000 to be used in FY 2011.
- Over 3,000 trees were given away as part of the City's annual Arbor Day Program.

Public Works, Community Development

- Finalized the Smart Code project and will be working on the first sizable annexation under this code in 2011.
- Digitized engineering plan, plats, and as build drawings, work is continuing in this area.
- Enhanced GIS system to tie building, planning and engineering together leading to greater cooperation and coordination.
- Installing radio read meters to read water meters using less labor hours. This program is 65% complete at this point.

- Installing hydrant locks for added security of the system. This program is 75% completed at this time.
- Construction of the expansion of the reclamation treatment plant to meet the additional growth in our community.

Administration

- Assisted with the finalization of the Access 90 project and was successful in placing the project on the State of Idaho's State Transportation Improvement Plan.
- Implemented a new flatter organization chart, allowing for more centralization of processes in the City.
- Recruited a new City Clerk after the retirement of the long standing Clerk.
- Recruited a new Police Chief after the retirement of the long standing Chief.
- Helped to secure an economic recovery zone bond for the Berg Integrated Systems company for the construction and development of a new industrial building.
- Finalized a land exchange with the Post Falls Landing project that will provide the public with waterfront property along the Spokane River and ultimately an amphitheater and public promenade as the project develops.
- Approved a balanced budget that maintains a high level of service while also setting a budget level less than the previous fiscal year.
- Approved a process to eliminate a long-term liability by ending a retirement sick leave buyout program. Employees already eligible for the program were treated equitably as the system was phased out in FY 10.
- Approved and implemented new financial software to improve accountability and flexibility in reporting to both internal departments and external customers.

Factors Affecting Financial Condition

In the current economic environment, the main factors affecting the City's financial condition are the slow growth in the area, high unemployment, high housing foreclosures, and the instability of investment markets with lower than normal returns. The City has responded to this downturn in the economy by implementing efficiencies that allow for the reduction of labor hours without a reduction in the level of service. The last two years, the City has reduced its General Fund budget by approximately \$3 million and anticipates the FY 11 budget allocation levels to stabilize over the next couple of years. With the changes the City has implemented, it will be ready to address future needs of the citizens.

Other Information – Idaho State statutes require an annual audit by independent auditors. The accounting firm of Magnuson, McHugh & Company, P.A. was selected to perform the audit with the approval of the City Council. In addition to meeting requirements set forth in the Idaho statutes, the audit was also designed to meet the requirements of the Single Audit Act of 1997 and related OMB Circular A-133. The auditor's report on the basic financial statements and combining and individual fund statements, schedules, and the single audit are included in the financial and single audit section of this report.

Certificate of Achievement – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement of Excellence in Financial Reporting to the City of Post Falls, Idaho for its comprehensive annual financial report for the fiscal year ended September 30, 2009. This was the twelfth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements – I would like to thank the entire staff of the Finance Office for their dedicated services in assisting and contributing to the preparation of this report. Due credit should also be given to Mayor Clay Larkin, City Administrator Eric Keck and the City Council for their interest and support in conducting the operations of the City in an efficient and progressive manner.

Respectfully submitted,

Shelly Enderud
Finance Director

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of Post Falls
Idaho

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
September 30, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and City Council of
City of Post Falls
Post Falls, ID 83854

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Post Falls, as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. We have also audited the financial statements of each of the City of Post Falls' nonmajor governmental funds presented in the accompanying combining and individual fund financial statements and schedules as of and for the year ended September 30, 2010, as listed in the table of contents. These financial statements are the responsibility of the City of Post Falls' management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Post Falls Urban Renewal Agency discretely presented component unit, which represents 100 percent of the assets, net assets, and revenues of the discretely presented component unit. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for Post Falls Urban Renewal Agency's governmental activities, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Post Falls as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental fund of the City of Post Falls, as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the debt service and special revenue funds for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 14 through 26 and 61, 65 through 72 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Count On Us To Care

INDEPENDENT AUDITORS' REPORT (CONCLUDED)

We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Post Falls financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the report of other auditors, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Management's Discussion and Analysis

As management of the City of Post Falls, we offer readers of the City of Post Falls' financial statements this narrative overview and analysis of the financial activities for the fiscal year ended September 30, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- The assets of the City of Post Falls exceeded its liabilities at the close of the most recent fiscal year by \$159,965,348 (net assets).
- At the end of the current fiscal year, undesignated fund balance for the general fund was \$7,151,378, or 47 percent of total general fund expenditures.
- The governments net assets increased by \$6,989,465. Approximately half of this increase is attributed to one-time infusions of resources from capital contributions.
- In the City's business-type activities, operating revenues increased by \$116,214 (1.3 percent) and operating expenses increased by \$358,221 (6.2 percent). These increases are due to a combination of increases in operating costs and a small increase in the customer rates (less than 2% average).
- The City performed a budget amendment mid-year to allow for the use of prior year unallocated funds and to receipt several grants and unanticipated revenues. The amendment totaled \$1.4 million.
- During the current fiscal year, City of Post Falls' debt had a net decrease of \$971,185 (including compensated absences). This was primarily due to normal annual debt payments. Compensated absences was the only debt having a net increase (\$295,751).
- The City of Post Falls holds an A+ bond rating with Standard & Poors.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Post Falls' basic financial statements. The City of Post Falls' basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Post Falls' finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all the City of Post Falls' assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Post Falls is improving or deteriorating.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Post Falls that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of the City of Post Falls include general government, public safety, streets, parks and recreation. The business-type activities of the City of Post Falls include water, wastewater and sanitation.

The government-wide financial statements include not only the City of Post Falls itself (known as primary government), but also a legally separate urban renewal district for which the City of Post Falls is not financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 27 to 28 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Post Falls, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Post Falls can be divided into categories: governmental funds and proprietary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental

funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Post Falls maintains sixteen individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, LID 2004-1, and the capital fund, all of which are considered to be major funds. Data from the other thirteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Post Falls adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements may be found on pages 29 to 31 of this report.

Proprietary funds. The City of Post Falls maintains three different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Post Falls uses enterprise funds to account for its Water, Sewer and Sanitation operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water, Sewer and Sanitation operations, all of which are considered to be major funds of the City of Post Falls.

The basic proprietary fund financial statements may be found on pages 32 to 34 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements may be found on pages 35 to 60 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds may be found on pages 62 to 63 of this report. Combining and individual fund statements and schedules can be found on pages of this report.

Government-wide Financial Analysis

The following tables, graphs and analysis discuss the financial position and changes to the financial position for the City as a whole as of and for the ended September 30, 2010.

Net Assets. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Post Falls, assets exceeded liabilities by \$159,965,348 at the close of the most recent fiscal year.

By far the largest portion of the City of Post Falls' net assets (72.9 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, other improvements, infrastructure, and construction in progress); less any related debt used to acquire those assets that are still outstanding. The City of Post Falls uses these assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Post Falls' investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Below is a summary of the City of Post Falls' Net Assets statement.

City of Post Falls' Net Assets

	Governmental Activities		Business-Type Activities		Total	
	2010	2009	2010	2009	2010	2009

Total net assets	<u>\$63,902,742</u>	<u>\$60,855,172</u>	<u>\$96,062,606</u>	<u>\$92,120,711</u>	<u>\$159,965,348</u>	<u>\$152,975,883</u>

An additional portion of the City of Post Falls' net assets (12.5 percent) represents recourses that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$23,456,379) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Post Falls is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

At the end of the current fiscal year, 85.1 percent of the liabilities are made up of noncurrent liabilities. This primarily represents bonds and leases discussed in Notes 6 and 7 of the notes to the financials.

Governmental activities. Governmental activities' key elements are broken down in the following charts. Governmental activities increased net assets by \$3,047,570 and business-type activities increased net assets by \$3,941,895.

The City's direct charges to users of governmental services made up \$3,624,166 or 18.9 percent of total governmental revenue. These charges are for park rentals, recreation classes, building permits and other fees related to public safety and administration. Public safety which includes police, domestic violence assistance, animal control and dispatch services accounts for \$5,059,738 in expenditures, or 29.4 percent of the total. Highway and public works accounts for \$3,550,658 in expenditures, or 20.6 percent of the total. Culture and recreation accounts for \$1,728,016 in expenditures, or 10 percent of the total. General government, the largest program, accounts for \$6,425,994 in expenditures, or 37.3 percent of the total.

Below is a summary of the City of Post Falls' Changes in Net Assets.

Revenue by Source - Governmental Activities

Expenses and Program Revenues - Governmental Activities

- The majority of the City of Post Falls’ governmental activities’ revenue is received from property tax (46 percent) with charges for services following at (19 percent).
- When all taxes are added together, they make up 62 percent of the budget.
- When revenues are compared to expenses, it shows that none of the City of Post Falls’ programs are self supporting. They all require tax support to continue at their current level of service.
- Grants and contributions are primarily received by public safety and public works. These grants normally have matching requirements by the City, but allow programs and projects that may not happen without those additional funds. The City currently runs a domestic violence program that is primarily funded through federal grants each year.

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services. The only major transactions during the year were a force main extension in sewer and the ground breaking for a new city hall in the capital fund. No significant losses or revenues were received during the year and building permit revenue has continued even through this rough economy.

Major funds in the City are general fund, LID 2004-1 and the capital fund. Significant transactions within the general fund this year mainly consisted of repayment of debt and payment of personnel has been steadily increasing with the aggressive market in the Pacific Northwest and since health insurance has been increasing each year. The average wage increase in the City for the current fiscal year was zero percent. This was due to the current economy and the City striving to keep

property taxes down with the high unemployment in the area. No significant transactions occurred for LID 2004-1 this year. Last, in the capital fund a focus was placed on completing street related projects during the current year.

The general fund has a significant cash balance at year end. A portion of this cash balance has been designated as a contingency fund and the balance has been reallocated for expenditure in the FY 11 budget. Last, the capital fund has a large cash balance that is primarily made up of money that is being saved for future capital projects such as a park acquisition, park improvements and future road construction.

Business-type activities. Business-type activities' key elements are broken down in the following charts.

- One of the major sources of the City of Post Falls’ business-type activities’ revenue is received from charges for services (78 percent). Currently, the City of Post Falls’ business-type activities do not use property taxes for any type of funding.
- The second major source of revenue is capital construction (14 percent). These contributions are received by water and sewer only. The sanitation for the City of Post Falls is contracted out, and the City has no capital investment in that program.
- When revenues are compared to expenses, it shows that all of the City of Post Falls’ programs are self supporting. In sewer this includes capital contributions from developers.
- Investment earnings are showing a small upturn in FY 10 as interest rates start increasing with the economic changes.

Again, for the most part, increases in expenses closely paralleled inflation and growth in the demand for services. The City had been growing at a very rapid pace and it has slowed considerably over the last couple of years. The City is the only sewer provider within the City limits and is one of three providers of water within the City limits. All sanitation services are provided through the City.

Financial Analysis of the Government’s Funds

As noted earlier, the City of Post Falls uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Post Falls governmental funds is to provide information on near-term inflows, outflow, and balances of spendable resources. Such information

is useful in assessing the City of Post Falls' financing requirement. In particular, unreserved fund balance may serve as a useful measure of government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Post Falls' reported a combined ending fund balance of \$14,060,243, an increase of \$2,046,062 in comparison with the prior year. This increase is primarily due to timing on capital projects and a cautionary stance on operating expenditures in the current economy. The current fund balance contains \$385,711 of reserved dollars, \$3,774,399 of designated dollars and the balance of \$9,900,133 is unreserved and undesignated, which is available for spending at the government's discretion.

The general fund is the chief operating fund of the City of Post Falls. At the end of the current fiscal year, unreserved and undesignated fund balance of the general fund was \$7,151,378, with a total fund balance of \$10,959,554. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 47.2 percent of total general fund expenditures, while total fund balance represents 72.3 percent of that same amount.

The other major funds of the City of Post Falls have the following fund balances at year-end: LID 2004-1 has an unreserved fund balance of \$697,888. This balance is due to prepayments on the LID. The Capital Fund has a reserved fund balance of \$351,934. This is reserve set by debt service requirements. The Capital Fund has an unreserved fund balance of \$1,911,708. This fund balance will be used towards future capital projects in the City's CIP.

Proprietary funds. The City of Post Falls' proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the water, sewer and sanitation funds at the end of the year amounted to \$15,594,800 (water \$4,145,143; sewer \$10,652,509; and sanitation \$797,148). Restricted net assets at the end of the year amounted to \$13,006,075 (water \$5,261,902 and sewer \$7,744,173).

General Fund Budgetary Highlights

One budget amendment was performed during the current fiscal year. This amendment increased the budget by a total of \$1,439,342. General Fund revenues ended the fiscal year with a total positive variance of 2.0 percent. Expenditures ended the fiscal year with a total positive variance of 11.0 percent. The major variance in revenues was due to increased earnings in interest and an increase in grant revenues. The variance in expenditures was due to a combination of numerous small savings in the general government area along with an unexpended fund balance carryover to FY 11. During this fiscal year, the City used a very conservative approach to operating expenses due to the current economy and the prediction of decreased tax revenues.

Capital Asset and Debt Administration

Capital assets. The City of Post Falls' investment in capital assets for its governmental and business-type activities as of September 30, 2010 amounts to \$132,511,124 (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery, equipment, other improvements, and infrastructure. The total increase in the City of Post Falls' investment in capital assets for the fiscal year was 6.9 percent (a 2.0 percent increase for governmental activities and a 10.7 percent increase for business-type activities).

City of Post Falls' Capital Assets

(net of accumulated depreciation)

Major capital asset events during the current fiscal year included the following:

- Donated capital assets from developers as they develop commercial areas and subdivisions.
- Continued with upgrades in various parks owned by the City.
- Focused on capital street projects during the course of the fiscal year.
- Various Sewer projects across the City in an effort to keep up with growth.
- Purchased equipment for Public Safety through the use of federal grants to help keep the community safe.

Additional information on the City of Post Falls' capital assets can be found in note 4 on pages 44 to 45 of this report.

Long-term debt. At the end of the current fiscal year, the City of Post Falls had total bonded debt outstanding of \$12,556,641. Of this amount, \$525,000 is comprised of debt backed by the full faith and credit of the government and \$2,170,000 is a special assessment debt for which the government is liable in the event of default by the property owners subject to the assessment. The remainder of

the City of Post Falls' debt represents bonds secured solely by specified revenue sources (i.e., revenue bonds), a water loan from DEQ secured solely by specified revenue sources, leases secured by general fund, and compensated absences accrued by employees and a liability of general fund (\$1,166,940), water (\$29,482) and sewer (\$43,971).

<u>Debt Type</u>	<u>2010 Balance</u>	<u>2009 Balance</u>

Compensated Absences:	<u>1,240,393</u>	<u>944,642</u>
	\$17,206,322	<u>\$18,177,507</u>

The State of Idaho mandates a general obligation debt limit of 2% of the assessed market value of taxable property within the City boundaries. The limit totaled \$47,622,831 on September 30, 2010. The City's general obligation bond above is subject to this limit. Therefore, \$46,937,831 is available for future general obligation indebtedness.

Additional information on the City of Post Falls' long-term debt can be found in notes 6 and 7 on pages 46 to 51 of this report.

Economic Factors and Next Year's Budgets and Rates

- Unemployment in Kootenai County has spiked this year. The current rate for 2010 was 10.8% while the labor force pool decreased to 72,282, down about 1,662 in the last year. This figure does not include underemployed which is estimated at 9.9%. The prior year reflected only a 10.6% unemployment rate. This rate is expected to continue to be high over the next year.
- The national economy is seeing a slow down and the local economy has started to reflect this same state. Last year, the population increased by 3.3% in the City and 1.7% in Kootenai County while the State increased by 1.2% overall. Since 2000, the City has increased by 54.2%, while the County has increased by 28.3%, the State has increased by 19.5%, and the USA has increased by 8.0%. As you can see, this year's number is very minimal and FY11 is anticipating a small increase also.
- Building permits issued in the City of Post Falls have dropped considerably over the last three years. In the next year, this same low level is anticipated.
- The number of utility accounts has continued to increase at a small level and that lower growth level has been included in the budget process.

All of these factors were considered in preparing the City of Post Falls' budget for the 2010 reported fiscal year and the upcoming 2011 fiscal year.

Budget Highlights for Fiscal Year 2010-2011

Governmental Activities. During the current fiscal year, undesignated fund balance in the general fund decreased to \$7,151,378. A major portion of this decrease was from the reallocation . The City of Post Falls has appropriated a portion of this amount for spending in the 2011 fiscal year budget. The remaining balance will be reserved during fiscal year 2011 as a contingency fund or designated to the appropriate area.

Business-Type Activities. Both water and sewer operating rates were increased by 2.5 percent in the 2011 budget year. Sanitation rates were increased by 4.0% as per a new contract with an outside hauler. Water and sewer rates are set by rate studies that updated every five years.

Requests for information

This financial report is designed to provide a general overview of the City of Post Falls' finances for all those with an interest in government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 408 N Spokane St., Post Falls, ID 83854.

**City of Post Falls
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balance of
Governmental Funds to the Statement of Activities
For the Year Ended September 30, 2010**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 2,046,062
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	477,487
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets.	605,828
Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.	(143,174)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	<u>61,367</u>
Change in Net Assets of Governmental Activities	<u><u>\$ 3,047,570</u></u>

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

The accounting methods are procedures adopted by the City of Post Falls conform to generally accepted accounting principles as applied to governmental entities. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following notes to the financial statements are an integral part of the City's basic financial statements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity – The City of Post Falls (the City) is an Idaho municipality. The City provides public safety, street lighting, street construction and maintenance, recreation, parks, planning and zoning, animal control, cemetery, general administration, construction, water, sewer, and sanitation collection services to its citizens.

The accompanying financial statements include all aspects controlled by the City Council of the City of Post Falls. Criteria for inclusion is determined by Governmental Accounting Standards Board Statement No. 14 (GASB No. 14) which states, in general, that legally separate organizations for which the elected officials of the City are financially accountable for must be included in the City's financial statement as a component unit.

Under Idaho Code, in May 1991, the Post Falls City Council passed an ordinance which created the Post Falls Urban Renewal Agency (the Agency), a legally separate entity from the City. The Agency was established to promote urban development and improvement in blighted areas in and around the City. A board of seven directors, which are appointed by the City Council, governs the Agency. The City Council has the ability to appoint, hire, reassign, or dismiss those persons having responsibility for the day-to-day operations of the Agency. These powers of the City meet the criteria set forth in GASB No. 14 for having financial accountability for the Agency. Based on the above, the Agency has been discretely presented in the accompanying financial statements of the City as a component unit.

Under Idaho Code, the Agency has the authority to issue bonds. Any bonds issued by the Agency are payable solely from the proceeds of tax increment financing, and are not a debt of the City. The City Council is not responsible for approving the Agency budget or funding any annual deficits. The Agency controls its disbursements independent of the City Council.

The Agency operates on a calendar year basis/ Complete financial statements of the Agency can be obtained directly from:

Post Falls Urban Renewal Agency
201 E 4th Street
Post Falls, ID 83854

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the activities of the primary government and its

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

component units. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, franchise fees and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government reports the following major governmental funds:

1. The *general fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. Principal sources of revenue are property taxes, charges for services from other funds, intergovernmental revenues, interest and other miscellaneous revenues. Primary expenditures are for general administration.
2. *Debt service fund LID 2004-1* accounts for proceeds and expenditures for a local improvement district that was created for street and sewer improvements. The primary source of revenue is from assessment collection. The primary expenditure is or bond obligations.
3. The *capital fund* accounts for all governmental fund major capital projects. These projects include street capital, park improvements and city facilities. The primary sources of revenue are from impact fees, grants and general fund transfers. The primary expenditures are for park improvements, streets and city facilities.

The government reports the following major proprietary funds:

1. The *sewer fund* is used to account for the activities of the City's wastewater treatment facility.
2. The *water fund* is used to account for the activities of the City's water division.
3. The *sanitation fund* is used to account for the City's contract for garbage collection services.

Additionally, the government reports the following fund types:

1. *Debt service fund* accounts for the servicing of general long-term debt not being financed by proprietary funds.
2. *Special revenue funds* account for revenue sources that are legally restricted to expenditure for specific purposes (not including expendable trusts or major capital projects).

Private-sector standards of accounting and financial reporting issued after November 30, 1989, generally are followed in both the business-type government-wide and proprietary fund financial statement to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's sewer, water and sanitation functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grant and contributions, and 3) capital grants and contributions, including special assessments. Internally, dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. The franchise fees the City receives are all based on a percentage of gross receipts so they are treated as general revenues and no portion is reported as a charge for service in a function or activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer, water and sanitation funds are charges to customers for sales and services. The sewer and water fund also recognize as operating revenue the portion of cap fees intended to recover the cost of connecting new customers to the system. Operating expense for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expense not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Prepaid Items – Certain payments to vendors reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

Budgetary Data – Annual operating budgets are adopted each fiscal year for each governmental and enterprise fund through passage of an annual budget ordinance. The budget is prepared on a basis consistent with the basis of accounting utilized for each respective fund type (i.e. the modified accrual basis for the governmental funds and accrual basis for the enterprise funds) with the exception that in the enterprise funds, capitalization fees are budgeted as a revenue source, bond principal payments and capital disbursements are budgeted as a revenue source, bond principal payments and capital disbursements are budgeted as expenses, and depreciation is not budgeted. These items are reconciled to GAAP in the statements of Revenues and Expenses – Budget and Actual.

Obligations under capital leases are budgeted in each of the respective funds on a fiscal year basis. Each capital lease agreement has a nonappropriation clause, which generally states that each fiscal year's lease payments are subject to City Council approval. The lease payment appropriations are included in the operating budget.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reported budgeted amounts are as originally adopted or as amended by Council resolution. Presented budgetary information in these financial statements does not include amendments. The level of budgetary control for the City is at the total fund level per Idaho statute. The appropriated budget is prepared by function and department. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the City Administrator. The legal level of budgetary control is the fund level. Any changes in the total budget of each fund must be approved by a majority vote of the City Council. The original and amended budgets were properly approved by ordinance during the fiscal year. Encumbrance accounting is not employed as an extension of formal budgetary integration. All outstanding encumbrances lapse and are closed to fund balance at the end of each fiscal year and any remaining unencumbered appropriations lapse at fiscal year end.

Cash and Investments – The City maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments".

Cash and investments, except for small amounts of cash on hand, are deposited in pooled accounts of the City. The City invests cash surpluses in these accounts, and investments earnings, as well as gains and losses on sales of securities, are allocated to the various funds on the basis of average cash balances. Funds with deficit cash balance averages (interfund payables) are charged interest equivalent to the average investment earnings lost in financing the deficits.

The pooled investments are recorded at cost, which approximates fair value. Investments in mutual funds are recorded at their current redemption value.

Statement of Cash Flows – The City pools money from several funds to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

Investments – Investments are stated at cost and are comprised principally of time certificates of deposit, government backed securities, and Idaho State pooled investments. Cost at September 30, 2010 materially approximates fair value. Investments on hand at September 30, 2010 meet the guidelines as set by regulations of the State of Idaho. These guidelines include securities of the U.S. Government or its agencies, certificates of deposit placed with commercial banks and savings and loans, banker's acceptances, commercial paper, repurchase agreements, State and County investment pools, insured money market accounts, and passbook savings account demand deposits.

Due To and From Other Funds – Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Restricted Assets – Certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because they are maintained in separate bank accounts and their use is limited by applicable bond covenants.

Capital Assets – Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives:

	Estimated Life
Machinery and equipment	3 -10 years
Computer Equipment	3 – 5 years
Computer Software	3 – 5 years
Furniture and fixtures	3 -15 years
Public domain infrastructure	20 – 50 years
Building/Improvements	20 – 40 years
Sewer System/Improvements	20 – 50 years
Water System/Improvements	20 – 50 years
Vehicles	3 – 5 years

Bond Refunding Costs – In the government fund types, bond discounts and issuance costs are recognized in the current period. For proprietary fund types, such amounts are deferred and amortized over the term of the bonds. Amortization is computed on the straight-line method as follows:

	Years
Water Bond refunding costs	16
Sewer Bond issuance costs	20

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Accounts Receivable – Utility accounts receivable, net of allowances for doubtful accounts for the enterprise funds as of September 30, 2010 are as follows:

Water:	
Gross accounts receivable	\$418,795
Less allowance for doubtful accounts	<u>(12,481)</u>
Accounts receivable, net	<u>\$406,314</u>
Sewer:	
Gross accounts receivable	\$727,291
Less allowance for doubtful accounts	<u>(199,748)</u>

Property Tax Revenues – Property taxes are levied each November based on the assessed value of property as listed on the previous September tax rolls. Assessed values are an approximation of market value. The County Assessor establishes assessed values. Property tax payments are due in one-half installments in December and June. Property taxes become a lien on the property when it is levied. State statute sets maximum property tax rates for the various funds of the City of Post Falls. For the general fund, the City cannot levy more than 103% of the highest amount in the prior three year's certified property tax amount. For other funds, the 3% increase is not applicable but is limited by statute. Rates are expressed in millage of total market value. The millage rate for the 2009-2010 fiscal year was .004955054.

Deferred Revenue – Property tax and debt service revenues are recognized when measurable and available to finance current expenditures. The criteria of available has been defined as having been received within 60 days after year-end. Any portion of taxes receivable not meeting this criteria are recorded in the deferred tax revenue account and will be recognized as revenue when measurable and available.

Compensated Absences – City employees are entitled to certain compensated absences based on their length of employment. Both current and long-term compensated absences are treated by the basic concepts set by GASB-16. Compensated absences are accrued when vested and reported in the government-wide and proprietary financial statements. A liability for these amounts is reported in government funds only if they have matured, for example, as a result of

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

employee resignation and retirement. The General Fund is typically used to liquidate the portion of the City's compensated absences liability pertaining to its governmental activities.

NOTE 2: CASH AND INVESTMENTS

Cash and Investments

The City maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is presented on the combined balance sheet as "Cash and Investments".

Cash and Investments are comprised of the following at September 30, 2010:

Cash on hand	\$ 1,725
Deposits with financial institutions:	
Demand deposit	223,793
Time certificates of deposit	511,546
Investments	<u>42,149,195</u>
Total	<u>\$42,886,259</u>

Cash and investments are reflected on the Combined Balance Sheet as follows:

Cash and Investments	\$30,330,734
Restricted Cash and Investments	<u>12,555,525</u>
Total	<u>\$42,886,259</u>

Deposits

The carrying amount of the City's deposits with financial institutions was \$223,793 and the bank balance was \$82,961. Of the bank balance, \$82,961 was covered by federal depository insurance or by collateral held by the government's agent in the government's name. The City currently does not have a formal policy regarding custodial risk for deposits. The City's investments are categorized into three categories of credit risk. Currently the City does not have a formal policy relating to interest rate risk or relating to the credit risk of investments.

Investments

The City's investment policy was developed by the Finance Department and adopted by the City Council. It was also certified by the Association of Public Treasurers, United States & Canada. The policy provides the Finance Director with the authority to invest in any of the securities identified as eligible investments as defined by State statute with primary emphasis of safety of principal and liquidity.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 2: CASH AND INVESTMENTS (Continued)

The City participates in the Idaho State Treasurer's Local Governmental Investment Pool (LGIP) which is under the administrative control of the Idaho State Treasurer's Office. The LGIP is rated "AAA" by Standard and Poor's. The pool seeks to maintain a constant value of \$1 per share. The fair value of the City's investment in this pool is reported in the accompanying financial statements at amounts based upon the City's pro-rata share of the fair value, same as the value of the pool shares, provided by the State Pool for the entire State Pool portfolio.

The investments the City has in the State Investment Pool are carried at cost which approximates fair market value. The city's portion of the State Investment Pool had an unrealized gain of \$26,128 which has not been recognized in the financial statements.

Custodial credit risk for investments is the risk that in the event of failure of the counterparty to a transaction, the City will recover the value of the investment or collateral securities that are in the possession of an outside party. Except for the certificates of deposit, the remaining investments of the City were not exposed to custodial risk as of September 30, 2010. For purposes of risk exposure, certificates of deposit are treated as deposits, which were previously discussed above.

NOTE 3: SPECIAL ASSESSMENTS RECEIVABLE

Special assessments receivable from benefited property owners of public improvements consist of the following as of September 30, 2010:

Deferred principal amounts not currently due, but due at future date	<u>\$1,607,055</u>
	<u>\$1,607,055</u>

The City did not have any delinquent principal amounts this year. Installment payments of principal and interest due from property owners are billed annually.

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 5: DEFINED BENEFIT PENSION PLAN

Public Employee Retirement System of Idaho (PERSI) – the PERSI Base Plan, a cost sharing multiple-employer public retirement system, was created by the Idaho State Legislature. It is a defined benefit plan requiring that both the member and the employer contribute. The Plan provides benefits based on members' years of service, age and compensation. In addition, benefits are provided for disability, death, and survivors of eligible members or beneficiaries. The authority to establish and amend benefit provisions is established in Idaho Code. Designed as a mandatory system for eligible state and school district employees, the legislation provided for other political subdivisions to participate by contractual agreement with PERSI. After 5 years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.0% (2.3% police/firefighter) of the average monthly salary for the highest consecutive 42 months.

PERSI issues publicly available stand alone financial reports that include audited financial statements and require supplementary information. The reports may be obtained from PERSI's website at www.persi.idaho.gov.

The actuarially determined contribution requirements of the City of Post Falls and its employees are established and may be amended by the PERSI Board of Trustees. For the year ended September 30, 2010, the required contribution rate as a percentage of covered payrolls for members was 6.23% for general members and 7.69% for police/firefighters. The employer rate as a percentage of covered payroll was 10.39% for general members and 10.73% for police/firefighter members. The City of Post Falls' employer contributions required and paid were \$782,283, \$778,700, and \$732,835 for the three years ended September 30, 2010, 2009 and 2008, respectively.

NOTE 6: LONG-TERM DEBT

General Obligation Bond

On November 4, 1997, the requisite majority of the qualified voters of the City authorized the issuance of General Obligation Bonds in the principal amount of \$2,000,000 to finance the construction of a new Library. The City issued these bonds on March 1, 1998. Repayment terms of the bonds call for semi-annual interest payments of March 1 and September 1, at rates ranging from 4.0% to 6.5%, and annual principal repayments of September 1 in amounts are ranging for \$90,000 in 1999 to \$185,000 in 2013.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 6: LONG-TERM DEBT (Continued)

Presented below is a summary of debt service requirements to maturity by years:

	<u>Year</u> <u>Ending</u>	<u>Interest</u> <u>Rate</u>	<u>Principal</u>	<u>Interest</u>	<u>Debt</u> <u>Service</u>
G.O.B.:	2011	4.50%	\$165,000	\$20,365	\$185,365
	2012	4.60	175,000	12,627	187,627
	2013	4.65	<u>185,000</u>	<u>4,301</u>	<u>189,301</u>
			<u>\$525,000</u>	<u>\$37,293</u>	<u>\$562,293</u>

Sewer Revenue Bonds

On March 15, 1982, the requisite majority of the qualified voters of the City authorized the issuance of Sewer Revenue Bonds in the principal amount of \$3,900,000 to finance the acquisition and construction of improvements and additions to the sewer system of the City. The City issued these bonds on the following dates and in the following amounts: Series 1985, issued May 15, 1985 in the amount of \$929,300; Series 1989, issued May 5, 1989 in the amount of \$1,500,000; and Series 1994, issued April 1, 1994 in the amount of \$1,470,700, for a total issuance of \$3,900,000.

The Series 1985 bonds and the Series 1989 bonds have been paid in full.

Repayment terms on the Series 1994 Bonds are semi-annual payments, due April 1 and October 1, in the amount of \$53,762.54, including interest at 4.00%

On December 30, 2004, the City issued \$3,969,500 of Sewer Revenue bonds, named the City of Post Falls Sewer Revenue Bond, 2004. The proceeds of these bonds, along with other resources of the City, were used to purchase land for land application of reclaimed water.

Currently, the City pumps all reclaimed water into the Spokane River. Future DEQ requirements may restrict this access and alternative means are needed to dispose of this reclaimed water.

Repayment terms on the bonds are annual principal payments (in the amount of \$396,950), due November 1 and quarterly interest payments, due each January 1, April 1, July 1, and November 1. The interest rate is 4.00% for all bonds.

On June 15, 2005, the City issued \$2,100,000 of Sewer Revenue Bonds, named the City of Post Falls Sewer Revenue Bond, 2005. The proceeds of these bonds, along with other resources of the City, were used to purchase land for land application of reclaimed water. This land will be used in conjunction with the land purchased with the City of Post Falls Sewer Revenue Bond, 2004.

Repayment terms on the bonds are semi-annual payments due June 1 and December 1 of each year with interest rates ranging from 3.25% to 4.05 % on the bonds.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 6: LONG-TERM DEBT (Continued)

On March 19, 2008, the City issued \$3,430,000 of Sewer Revenue Bonds, named the City of Post Falls Sewer Revenue Bond, 2008. The proceeds of these bonds, along with other resources of the City, were used to purchase land next to the wastewater treatment plant and make improvements to said land. This land will be used for future expansion of the plant and to maintain the vehicle maintenance shop.

Repayment terms on the bonds are semi-annual payments due March 1 and September 1 of each year with interest rates ranging from 3.00% to 5.00% on the bonds.

Presented below is a summary of debt service requirements to maturity by years:

SEWER REVENUE BONDS:

<u>Year</u> <u>Ending</u>	<u>Principal</u>	<u>Interest</u>	<u>Debt</u> <u>Service</u>
2011	\$ 713,384	\$ 273,353	\$ 986,737

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 6: LONG-TERM DEBT (Continued)

The City is fully obligated for the local improvement debt, placing liens against the property owners to ensure payment to the City. The LID Guarantee Fund was established by ordinance to provide additional security for the local improvement district bondholders. This fund is maintained at a level equivalent to 7% of the outstanding LID bonds, excluding LID 2004-1, which has its own debt service reserve. The required balance for this fund at September 30, 2010 is \$11,550. As of September 30, 2010, \$67,830 is set-aside in this fund.

Changes in governmental activity long-term debt are as follows (See Note 7):

	Balance <u>10/1/09</u>	<u>Additions</u>	<u>Deletions</u>	Balance <u>9/30/10</u>

	<u>\$897,523</u>

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 7: CAPITAL LEASES

General Fund – The General Fund has entered into 46 equipment leases and 1 building/land lease, which qualify as capital leases, as ownership of the assets transfers to the City at the end of the lease. The leases carry interest ratings ranging from 2.50% to 5.60% and require annual principal payments. The equipment secures the leases. The booked asset value of the leased equipment is \$640,796 with \$86,765 in depreciation booked and the booked asset value of the building/land is \$4,376,279, with \$1,047,287 in depreciation booked, with \$351,934 held in US Government bonds for reserve of the Certificates. All of the capital leases have non-appropriation clauses, which state that if funding is unavailable during the budget process to make the annual required lease payments, then the lease is canceled and the equipment returned to the lending institution.

Future minimum lease payments are as follows:

2011	\$ 468,063
2012	446,405
2013	220,514
2014	218,825
2015	218,825
2016-2020	1,678,920
2021-2022	<u>1,651,320</u>
Future minimum lease payments	4,902,872
Less amounts representing interest	<u>(1,493,584)</u>
	<u>\$3,409,288</u>

NOTE 8: COMPONENT UNIT DISCLOSURES

As disclosed in Note 1, the Post Falls Urban Renewal Agency meets the criteria for discrete presentation in the City's financial statements as a component unit. The following paragraphs describe significant transactions between the two entities and provide relevant disclosures related to the Agency.

Long-Term Debt

Washington Trust Bank – During fiscal year 2005, the Agency entered into an agreement to participate in one-third of the cost of a water reservoir to be constructed on the Center Point property up to \$500,000. The \$498,000 financing was secured through Washington Trust Bank on September 29, 2005. The stated rate of 4.53% on the note is adjustable after five years. The adjustment is based on the 5 Year Fixed Federal Home Loan Base Intermediate/Long-Term Bullet Advance rate plus 2.25%. The annual requirements to service the debt are as follows:

City of Post Falls

**NOTES TO FINANCIAL STATEMENTS
September 30, 2010**

*Rate is subject to change based on criteria listed above.

The changes in long-term debt for the year ending September 30, 2010 are as follows:

	<u>Beginning Balance</u>	<u>Issued</u>	<u>Retired</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Washington Trust Bank	\$ <u>323,700</u>	\$ <u>_____</u>	\$ <u>49,800</u>	\$ <u>273,900</u>	\$ <u>49,800</u>

Agency Cash and Investments

The Agency maintains its cash balances in one financial institution. The balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. The Agency also holds six certificates of deposit at six different financial institutions. The balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. As of September 30, 2010, the Agency had uninsured balances of \$37,817. The certificates of deposit mature on dates ranging from January 2011 to February 2012.

The State of Idaho Local Government Investment Pool (the Pool) is duly chartered and administered by the State Treasurer's Office. The Pool consists of U.S. Treasury bills and notes, collateralized certificates of deposit and repurchase agreements. Idaho code defines allowable investments. Governmental Accounting Standards Board Statement No. 3 requires the Agency to assign risk categories for its investments, except those in which securities are not used as evidence of the investment. The Pool has not been assigned a risk category since the Agency is not issued securities, but rather it owns an undivided beneficial interest in the assets of the Pool. The Pool is not registered with the Securities and Exchange Commission or any other regulatory body nor are any balances insured by the Federal Deposit Insurance Corporation. Financial reports are available from the Idaho State Treasurer's Office upon request.

Commitments

Greenstone – (Center Point) – During the 2006 fiscal year, the Agency entered into an Owner Participation Agreement with the Greenstone Corporation. Under this agreement, the Agency will

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 8: COMPONENT UNIT DISCLOSURES (Continued)

reimburse the cost of improvements made to infrastructure within the Center Point Urban Renewal District totaling, \$1,198,003. The Agency is only obligated to reimburse the Greenstone Corporation if tax increment revenues of the Agency, directly resulting from the project improvements made by the Greenstone Corporation are available. The Agency receives tax increment revenue and then deducts the amounts necessary to cover administrative costs, fund the district reserve and pay any district debt. The amount remaining is the reimbursement. Of the total amount the Agency has agreed to reimburse, \$935,560 was reimbursed in previous fiscal years, and \$262,443 was reimbursed in fiscal year 2010.

Stateline – During the 2007 fiscal year, the Agency entered into an Owner Participation Agreement with Stateline Business Park LLC. Under this agreement, the Agency will reimburse the cost of infrastructure improvements made within the Center Point Urban Renewal District totaling \$762,250. The Agency is only obligated to reimburse Stateline Business Park, LLC if net tax increment revenues of the Agency, directly resulting from the project improvements made by Stateline Business Park LLC are available. The Agency receives tax increment revenue and then deducts the amounts necessary to cover administrative costs, fund the district reserve and pay any district debt. The amount remaining is the reimbursement. Of the total amount the Agency has agreed to reimburse, \$201,774 was reimbursed in previous fiscal years, and \$371,834 was reimbursed in fiscal year 2010, leaving a balance of \$188,642.

Watson – During the 2007 fiscal year, the Agency entered into a Settlement Agreement with Watson and Associates for the Expo Urban Renewal District in an amount not to exceed \$4,702,827. Under this Agreement, the Agency will reimburse the cost of infrastructure within the Expo Urban Renewal District. The first reimbursement request of \$705,561 was increased by \$52,141 to a new total of \$757,702 and included cost submittals #1 & #2. A second reimbursement request for cost submittals #3 & #4 in the total of \$687,043 was approved in January of 2009. It is anticipated that as infrastructure improvements are completed, further reimbursement requests will be made. The Agency is only obligated to reimburse Watson and Associates if tax increment revenues of the Agency, directly resulting from the project improvements made by Watson and Associates are available. The Agency receives tax increment revenue and then deducts the amounts necessary to cover administrative costs, fund the district reserve and pay any district debt. The amount remaining is the reimbursement. Of the total amount the Agency has agreed to reimburse, \$515,646 was reimbursed in previous fiscal years and \$231,273 was reimbursed in fiscal year 2010, leaving a balance of \$697,826.

Greenstone – (West Seltice II) – During the 2009 fiscal year, the Agency entered into an Owner Participation Agreement with the Greenstone-Kootenai, Inc. Under this agreement, the Agency will reimburse the cost of infrastructure improvements made within the West Seltice II Urban Renewal District totaling \$1,990,008. The Agency is only obligated to reimburse the Greenstone-Kootenai, Inc. if tax increment revenues of the Agency, directly resulting from the project improvements made by the Greenstone-Kootenai Inc. are available. The Agency receives tax increment revenue and then deducts the amounts necessary to cover administrative costs, fund the district reserve and pay any district debt. The amount remaining is the reimbursement. Of the total amount the Agency has agreed to reimburse, \$181,046 was reimbursed in fiscal year 2009, and \$124,117 was reimbursed in fiscal year 2010, leaving a balance of \$1,684,845.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 8: COMPONENT UNIT DISCLOSURES (Continued)

Jacklin Land Company – During the 2008 fiscal year, the Agency entered into an Owner Participation Agreement with Jacklin Land Company. Under this agreement, the Agency will reimburse the cost of infrastructure improvements made within the Riverbend II Urban Renewal District totaling \$2,769,476. The Agency is only obligated to reimburse Jacklin Land Company if tax increment revenues of the Agency, directly resulting from the project improvements made by Jacklin Land Company are available. The Agency receives tax increment revenue and then deducts the amounts necessary to cover administrative costs, fund the district reserve and pay any district debt. The amount remaining is the reimbursement. Of the total amount the Agency has agreed to reimburse, \$805,800 was reimbursed in fiscal year 2009, and \$628,099 was reimbursed in fiscal year 2010, leaving a balance of \$1,335,577.

Tullamore Properties, LLC – During the 2008 fiscal year, the Agency entered into an Owner Participation Agreement with Tullamore Properties, LLC. Under this agreement, the Agency will reimburse the cost of infrastructure improvements made within the East Post Falls Urban Renewal District totaling \$2,724,027. The Agency is only obligated to reimburse Tullamore Properties, LLC if tax increment revenues of the Agency, directly resulting from the project improvements made by Tullamore Properties, LLC are available. The Agency receives tax increment revenue and then deducts the amounts necessary to cover administrative costs, fund the district reserve and pay any district debt. The amount remaining is the reimbursement. Of the total amount the Agency has agreed to reimburse, \$94,795 was reimbursed in fiscal year 2009, and \$46,279 was reimbursed in fiscal year 2010, leaving a balance of \$2,582,953.

NOTE 9: EXPENDITURES IN EXCESS OF BUDGETED APPROPRIATIONS

The following funds had expenditures in excess of budget:

	<u>Budgeted Expenditures</u>	<u>Actual Expenditures</u>
Debt Service:		
CLID #2	\$ 0	\$ 71
Special Revenue		
Street Lights	305,500	415,464
Special Events	33,730	71,350

The over expenditure in these funds occurred because the budget was not amended during the year to handle the resultant over expenditures. Adequate cash and fund balance was available to handle the additional costs. The reason behind the over expenditures was administrative expenditures for the year were higher than anticipated in the fiscal year for the LID funds. The street lighting fees were increased by the vendors during the fiscal year for the Street Light fund. The Special Events fund included an expenditure to purchase a building that was unanticipated at the beginning of the year.

City of Post Falls

**NOTES TO FINANCIAL STATEMENTS
September 30, 2010**

NOTE 10: DEFICIT FUND EQUITY

The following funds had deficit fund equity at September 30, 2010:

<u>Fund</u>	<u>Deficit</u>
Special Revenue: 911 Support	\$321,773

Management is aware of these deficits and is taking appropriate action.

NOTE 11: COMMITMENTS AND CONTINGENCIES

Commitments – The City is currently working on a few sewer, water, parks and street projects. The first and largest project is the wastewater treatment plant upgrade. The City is also completing a lift station upgrade in sewer and a water tie and a water master plan update in water. In parks, the City is upgrading amenities at three parks and rebuilding a boat launch on the river for citizen’s recreation. In streets the City is completing a street widening project and a round-a-bout to help with transportation in the City. All projects should be completed within FY 2011.

The City has also committed to moving its current library services to the Kootenai-Shoshone Area Libraries as of October 1, 2010. This decision was brought about by a vote of the citizens on November 3, 2009. All services and applicable revenues for the library have been moved starting with FY 2011.

Litigation – The City is a party to legal actions arising in the ordinary course of its business. In management’s opinion, the City has adequate legal defenses and/or insurance coverage relative to each of these actions. Although amounts are unknown at this point, management believes that the joint effort lawsuit against DEQ to contest the State of Washington Total Daily Maximum Load requirements. The cities in the Spokane River Watershed are asking for “Declaratory Judgment and Injunctive Relief.” The settlement date for this case is undetermined, but may have a material effect in the future of the City’s operations and required infrastructure if the requirements are upheld. Management does not believe any other actions will materially affect the City’s operations or financial position.

Intergovernmental Grants – The City has received several federal and state grants for specific purposes that are subject to review and audit by grantor agencies. Such audits could lead to request for reimbursement to grantor agencies for expenditures disallowed under the terms of the grant. Based upon prior experience, City management believes such disallowances, if any, will be immaterial.

City of Post Falls

**NOTES TO FINANCIAL STATEMENTS
September 30, 2010**

NOTE 12: DEFERRED COMPENSATION PLANS

Employees of the City may elect to participate in a Deferred Compensation Plan created in accordance with Internal Revenue Code Section 457. The plan is available to all employees and permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, death, retirement or unforeseeable emergency.

As per GASB Statement No. 32, the City does not list this plan on its Financial Statements.

NOTE 13: TRANSFERS

The composition of interfund transfers as of September 30, 2010, is as follows:

	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$1,244,819	\$ 462,033
Capital Fund	375,000	109,461
Nonmajor Governmental Funds	42,427	11,853
Enterprise Funds	<u>79,920</u>	<u>1,158,819</u>
Totals	<u>\$1,742,166</u>	<u>\$1,742,166</u>

The principal purposes for the transfer of funds from the Enterprise funds to the General fund to cover the administration costs of operating the City's utility division (water, sewer, and sanitation). The principal purpose of the transfer of funds from General fund to the Enterprise funds was to cover the lease costs of the street and fleet shop housed at the wastewater plant. The principal purpose for the transfer of funds from the Capital fund to the General fund was to cover the lease costs on the new police station. A portion of the new police station is paid for with impact fees collected in the capital fund. The principal purpose for the transfer of funds from the General fund to the Capital fund was to pay for the debt service on the New City Hall. The principal purpose for the transfer of funds from the Nonmajor governmental funds to the General fund is to cover the administrative costs of the Street Light fund and cover the administrative costs of the 911 Support fund.

NOTE 14: INTERFUND RECEIVABLES/PAYABLES

The composition of interfund balances as of September 30, 2010 is as follows:

Interfund receivable/payable:

	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 782,165	
Capital Fund		\$3,253,284
Nonmajor Governmental Funds		385,589
Enterprise Funds	<u>2,856,708</u>	
Totals	<u>\$3,638,873</u>	<u>\$3,638,873</u>

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 14: INTERFUND RECEIVABLES/PAYABLES (Continued)

One of the purposes for the interfund/payables in the City is to cover negative cash balances at year-end. These are short-term interfund/payables and are intended to be corrected within the next fiscal year. This would include the Nonmajor Governmental funds payables. For example, the LID 91-1 owes the General Fund \$165. The exceptions to this are the borrowing from the Enterprise Funds. The 911 Support Fund owes \$18,362 to the Water Fund and \$367,062 to the Sewer Fund for construction of a wireless communication tower in 2007 that will be paid over the next five to ten years. The Capital fund owes \$617,821 to the Water Fund, \$1,853,463 to the Sewer Fund and \$782,000 to the General Fund for construction of the New City Hall in 2007, to be paid back over the next 20 years.

NOTE 15: RISK MANAGEMENT

The City faces a considerable number of risks of loss, including: a) damage to and loss of property and contents, b) employee torts, c) professional liability, i.e., errors and omissions, d) environmental damage, e) workers' compensation, i.e., employee injuries, and f) medical insurance costs of employees. A variety of methods are used to provide insurance for these risks. The only area they do not have insurance coverage for is environmental damage. This is due to lack of available coverage. During the last three years, the City has not had a claim in excess of insurance coverage. Therefore, there have been no outstanding claims at the end of those three years.

The first method the City provides is participation in a risk management program called the Idaho Counties Reciprocal Management Program (ICRMP). ICRMP is an insurance pool which serves all public entities in Idaho through provision of property, general liability (employee torts), auto liability and physical damages, and public officials' insurance (errors and omissions). ICRMP provides loss prevention training to enable its subscribers to minimize their exposure to loss through implementation of proper policies and procedures.

The costs of these insurance premiums are charged to the Comprehensive Liability Insurance fund for governmental fund operations and enterprise funds for proprietary fund operations. The Comprehensive Liability Insurance fund has the power to levy an annual property tax to provide for funds to pay premiums and settlements.

The City, also, participates in the Idaho State Insurance Fund. This statewide program provides coverage for workers' compensation claims. The City is charged premiums by a rating method the program uses. This rating method is based on a per employee job risk basis. After the end of every year, the City is audited, and based on their claims throughout the year, can be eligible for a refund. If the usage was excessive throughout the year, the Insurance Fund would increase the employee ratings where the use was excessive, causing the rates to increase for the following year. In the past, the City has received refunds on a regular basis. The premiums for this program are budgeted directly through each department.

City of Post Falls

NOTES TO FINANCIAL STATEMENTS September 30, 2010

NOTE 15: RISK MANAGEMENT (Continued)

Last the City provides various types of employee insurance. The City has chosen to not be self insured in this area. The City provides a benefit amount to each eligible employee. This benefit amount can be used towards the purchase of eligible insurance premiums, dictated by Internal Revenue Service codes. Currently, the City makes available for the employee to purchase medical, dental, life, and some supplemental insurance. Any insurance premiums not covered by this benefit amount are taken from the employee's wages. Excessive use of these insurance programs would be reflected in increased premiums in the following year. The benefit amount paid by the City is budgeted directly through each department.

NOTE 16: RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds and net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$7,360,883 difference are as follows:

Bonds payable	\$2,695,000
Accrued interest payable	89,655
Capital leases payable	3,409,288
Compensated absences	<u>1,166,940</u>
Net adjustment to increase fund <i>balance – total governmental funds</i> to arrive at <i>net assets – governmental activities</i>	<u>\$7,360,883</u>

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances – total governmental funds and changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains the “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and report as depreciation expense.” The details of this \$477,487 are as follows:

Capital outlay	\$2,331,142
Depreciation	<u>(1,853,655)</u>

City of Post Falls

NOTES TO FINANCIAL STATEMENTS
September 30, 2010

NOTE 16: RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
(Continued)

Net adjustment to increase *net changes in fund balances – total governmental funds* to arrive at *changes in net assets of governmental activities* \$ 477,487

Another element of that reconciliation states that “The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets.” The details of this \$605,828 difference are as follows:

In the statement of activities, only the gain on the sale of capital assets are reported. However, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the capital assets sold. \$ -0-

Donations of capital assets increase net assets in the statement of activities, but do not appear in the governmental funds because they are not financial resources. 605,828

Net adjustment to increase *net changes in fund balances – total governmental funds* to arrive at *changes in net assets of governmental activities* \$ 605,828

Another element of that reconciliation states that “Some revenues in the statement of activities do not provide current financial resources and are not reported as revenue in the funds. The details of this \$(143,174) difference are as follows:

Property taxes \$ 27,781
Special Assessment debt issued and repaid (170,955)

Net adjustment to decrease *net changes in fund balances – total governmental funds* to arrive at *changes in net assets of governmental activities* \$ (143,174)

Another element of that reconciliation states that “the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$61,367 difference are as follows:

Debt issued or incurred:

Schedule of Revenues, Expenditures and Changes in Fund Balances Budget and Actual

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Cemetery Perpetual Care - accounts for revenue received from cemetery lot sales used to maintain and expand cemetery capital expenditures.

HUD Loan Fund - accounts for loans made to low-income citizens requiring assistance in connecting to the City sewer systems along with other community enhancement projects.

Falls Park Signs - accounts for revenues and expenditures on special Falls Park projects funded by donations.

Special Events - accounts for tourism and community-oriented events that are self-supporting.

Street Lights - accounts for the component of City utilities that were billed out monthly to pay for the cost of lighting the City's streets.

911 Support - accounts for the capital investment in the City's 911 Center with money collected by the County from each resident's phone bill.

Drug Seizure – accounts for monies acquired during drug seizure activities.

Debt Service Funds

The debt service funds are used to account for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 99-1 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 96-1 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 91-1 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

CLID #2 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 89-1 – accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID Guarantee – accounts for additional security for the LID bonds. This fund is established by ordinance.

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Cemetery Perpetual Care - accounts for revenue received from cemetery lot sales used to maintain and expand cemetery capital expenditures.

HUD Loan Fund - accounts for loans made to low-income citizens requiring assistance in connecting to the City sewer systems along with other community enhancement projects.

Falls Park Signs - accounts for revenues and expenditures on special Falls Park projects funded by donations.

Special Events - accounts for tourism and community-oriented events that are self-supporting.

Street Lights - accounts for the component of City utilities that were billed out monthly to pay for the cost of lighting the City's streets.

911 Support - accounts for the capital investment in the City's 911 Center with money collected by the County from each resident's phone bill.

Drug Seizure – accounts for monies acquired during drug seizure activities.

Debt Service Funds

The debt service funds are used to account for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 99-1 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 96-1 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 91-1 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

CLID #2 - accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID 89-1 – accounts for the accumulation of resources and payment of special assessment bond principal and interest from special assessment levies.

LID Guarantee – accounts for additional security for the LID bonds. This fund is established by ordinance.

STATISTICAL SECTION

This part of the City of Post Falls, Idaho's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Page(s)</u>
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time	79-84
Revenue Capacity These schedules contain information to help the reader assess the City's most significant local revenue sources, the property tax and the room tax.	85-89
Debt Capacity These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	90-96
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.	97-99
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	100-104

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year. The City implemented GASB Statement 34 in 2003 schedules presenting government-wide information include information beginning that year.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and City Council
City of Post Falls
Post Falls, ID 83854

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Post Falls as of and for the year ended September 30, 2010, which collectively comprise the City of Post Falls' basic financial statements and have issued our report thereon dated February 21, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Post Falls' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Post Falls' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Post Falls' internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Post Falls' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.
